3. The ordering of the repertoire is based on Kangxi Dictionary.

4. The proposed UCS code is ranged from **0000** to **A6D6** in Plane 2.

5. By WG2 request, the printing format of the Working Draft shows single glyphs only, which take traditional design close to Kangxi Dictionary's style.

**Note 1** : Compared with the previous version (PreDIS), the PreDIS R1 made two changes:

- (1) The quality of all font images has been improved by replacing 96x96 bitmaps with 128x128 images generated from the TTF fonts made by Beijing ZhongYi Electronics Ltd. , HuNan Hua Tian Information Ltd. and Beijing Founder Group.
- (2) The mapping table from DPR Korea has been added into the whole mapping table which will be the part of the standard.

The other content has no change in repertoire, ordering, encoding , unification / separation, or abstract glyphs.

**Note 2** : This version of Extension B is extracted from SuperCJK 11.1, which is a super set of CJK Unified Ideographs, CJK Unified Ideographs Extension A, and CJK Unified Ideographs Extension B. For better checking, it is recommended to refer to the SuperCJK version 11.1, IRG N759, dated on 2000.11.21. For your convenience in cross checking, IRG N760 is available which shows both 96x96 old bitmaps and 128x128 new images.
