A Font Error in Extension-B Code Chart (of Published ISO/IEC 10646-2:2001) and in SuperCJK

During review process of Japanese proposal to Extension-C, one of the reviewers found a font error that is not reported in IRG N869 (Font Error (8 Ideograph) In SuperCJK.) Since this is an H-source-only character, Japan wants Hong Kong to confirm.

Problem: This character should have *tree* radical, but it mistakenly appears as *hand*.
