Title: Japan Submission to CJK Subset

Source: Japan

Date: 2003-06-26

Status: Member Body Contribution

Attachment: ts0007.txt

Text:

On June 2003, ITSCJ authorized a new Trial Standard, IPSJ-TS 0007 2003 "Basic Subset of Coded Character Sets — Japanese Core Ideographs". Japan proposes the characters in TS 0007 to be in the CJK Ideographic Subset. The TS will soon be available on ITSCJ web site.

See attachment for the list of submitted characters.

The list consists of 4593 ideographs of higher degree of functional importance in use in Japan. It contains frequently used characters in several newspapers or other publications.
