**Title: A proposal to encode 2288 Urgently Needed Hanja characters
in CJK Ext. D (Rep. of KOREA)**

Authors: Park Jong Woo; KIM, Kyongsok (Rep. of KOREA)

Status: National Position of Rep. of KOREA

Action: For consideration by JTC1/SC2/WG2/IRG

**1. Rep. of KOREA proposes to encode 2288 Hanja characters as Urgently
Needed characters in CJK Ext. D.**

For each of these 2288 Hanja characters, the source (e. g., a book or a document such as "The Annals of the Chosun Dynasty (朝鮮王朝實錄)") containing the Hanja character is clearly shown in the list of these Hanja characters.

2. A background

- A big project called "Korean History On-line Database" was carried out from 1999 to 2007.

- Mainly old documents in Hanja characters were computerized and became accessible on-line free of charge.

The home page of "Korean History On-line" is
<http://www.koreanhistory.or.kr>

- In carrying out the project, a large number of Hanja characters which have not been encoded in UCS were collected.

- Currently, these Hanja characters are sometimes represented as images. Even when fonts are used for displaying these Hanja characters, the glyphs do not have UCS code positions, which causes difficulties and problems.

- Therefore, we urgently need to encode these Hanja characters in UCS so that they can be represented as characters, not as images. This will greatly reduce the cost of processing these Hanja characters.

3. Other parts of IRG N1369 (=K1612) :

- IRG N1369-2 (=K1612-2) : a list of 2288 Hanja characters (.xls file)
- IRG N1369-3 (=K1612-3) : a pdf version of IRG N1369-2.

4. A sample page of the list of 2288 Hanja characters
