1. The UK reviewed IRG Working Set 2017 Version 2.0, and provided feedback on comments relating to characters submitted by the UK.
2. We have found additional evidence for UK-01969 that was removed from IRG Working Set 2015 due to a misprint in the original source evidence (see http://appsrv.cse.cuhk.edu.hk/~irg/irg/irg51/IRGN2308_UK-01969.pdf). We believe that this character can now be added to the Ext. G repertoire as it is still at the Committee Draft stage.
3. We are continuing to collect evidence for unencoded ideographs suggested for encoding by various experts.
