The US national body and UTC are planning to submit no more than 100 new ideographs for Extension F. For the most part, this submission will include ideographs categorized in the following three ways:

1. U-Source ideographs that are marked as “N” (Planned to be submitted for a future extension) in the UTR #45 datafile.

2. U-Source ideographs that are marked as “E” (Submitted for Extension E) in the UTR #45 datafile, but which were removed from Extension E for reasons other than unification.

3. New U-Source ideographs that are expected to be added to UTR #45 before the Extension F submission deadline (2012-10-20).

That is all.
