

# ISO/IEC JTC1/SC2/WG2/IRGN2155ROKResponse

Doc. # : Korea JTC1/SC2 k2301\_45\_Resp2comm\_N2155\_20161007

Korea JTC1/SC2, Committee on Character Codes

Authors : Shin Sanghyun, Cho Sungduk, Choi Jinswook, Heo Chul, Choi Jungdo

Date: 2016. 10. 07.

Status: National Body Position, Rep. of KOREA

Subject : ROK Response to IRGN2155ConsolidatedComments

This document provides the ROK responses to IRGN2155ConsolidatedComments. This report is consisting from four tables :

Table 1. Unification

Table 2. Attributes

Table 3. Font Design

Table 4. Evidence

Table 1. Unification

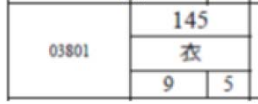

SN1	Image1	SN2	Image2	Type	Comment	KR Responses	Comment From
02975		U+79E7		Unification		No unification. A component is different: 史(U+53F2) and 央(U+592E) are different chars and have different readings.	SAT
03114		U+7BD5		Unification	May be unified?	No unification. A component is different: 王(U+738B) and 去(U+53BB) are different chars and have different readings.	SAT
03558		U+2B1E9		Unification	unifiable with U+2B1E9 as minor stroke difference?	No unification. A component is different: 丑(U+4E11) and 五(U+4E94) are different chars and have different readings.	J

Table 2. Attributes

SN	Image1	SN2	Image2	Type	Comment	KR Responses	Comment From
03801				radical and stroke count	radical and stroke count should be corrected to 113.9, to reflect the corrected glyph.  	Change Radical to 示(113), SC=9.	J

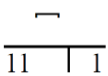

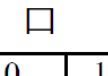

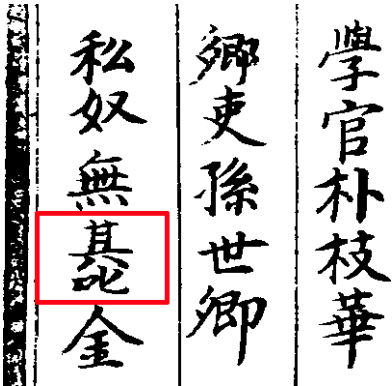

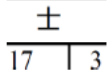

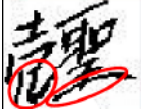

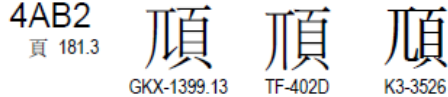

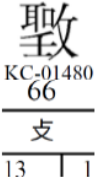

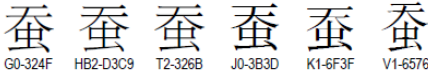

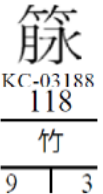

00219	 KC-00169			SC	T: 10. H: 10 Reference: 偃 (SC=9) 5043 人 ㉔ 63E0 ㉔ ㉔ ㉔ ㉔ ㉔ 03-5946 HB1-89933 T1-9679 J2-5073 H0-6367 V1-496A 00-9509 HB2-0950 T2-3022 J1-403E K1-953E	Change SC=10.	T, H
02941	 KC-02995 113 示 9   1			FS	1→2	Change FS=2.	G
02942	 KC-02999 113 示 9   3			SC	9→8	Change SC=8.	G
03016	 KC-03092 115 禾 12   5			SC	SC=13 Reference: IRGN954AR #26: 26 耨 丩 ㉔	No Change SC=12.	H

Table 3. Font Design

SN	Image1	SN2	Image2	Type	Comment	KR Responses	Comment From
00219	 KC-00169			Font design	UTC: The third stroke is too tall; other K-source characters exhibit this issue, but this seems to be one of the extreme cases	Change third stroke shortly.	T, UTC, H

00313	<p>𦉳</p> <p>KC-00265 14</p> 			Font design	<p>The lower left component looks  like rather than  and if the font design is changed, the SC should be 10. Evidence: </p>	<p>No change.  is hand writing style of , so that it can be normalized to .</p>	H
00615	<p>𦉳</p> <p>KC-00486 30</p> 			Font design	<p>The lower left component looks different from the evidence. The extra stroke should be removed. Evidence: </p>	<p>No change. See another Evidence. </p>	H
00813	<p>𦉳</p> <p>KC-00807 33</p> 			Font design	<p>The lower left component looks like  rather than  and the last horizontal stroke of the right component should be longer. Evidence: </p>	<p>No Change. It is same stroke. See IWDS No.221. 4AB2 頁 181.3 </p>	H

01036	 KC-04996			Font design Change FS to 2. Is it(in blue circle) a stroke or not? If it is, it should be more distinct. 	FS=2. In blue circle is a stroke of '   '.	T
01510	 KC-01480 66 支 13   1			Font design The last stroke of the left component should be longer. Evidence:  clear evidence accepted, irg46.	KR can't understand comment clearly. This glyph is composed of 聖+文.	H
02217	 KC-05318 86 火 8   2			Font design The evidence shows that the upper right component should be 日 rather than 日 and that the lower right component should be 天 rather than 天. Evidence: 	No Change. It is same stroke. See IWDS No.118. 44A4 艸 140.4  GKX-1022.03 T5-2763 K3-3056 See IWDS No.8. 8695 虫 142.4  G0-324F HB2-D3C9 T2-326B J0-3B3D K1-6F3F V1-6576	H
03118	 KC-03188 118 竹 9   3			Font design The lower right component looks like 永 rather than 永. If the font design is changed, the SC should be 10. Evidence: 	Change the lower right component as 永.	H

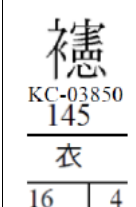

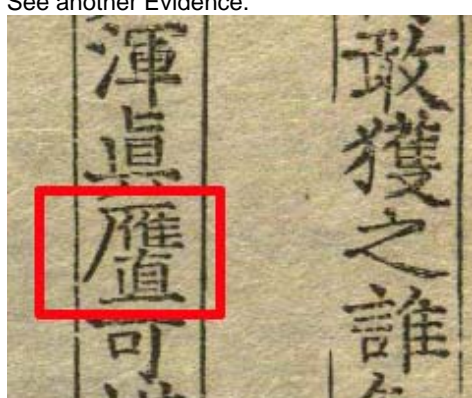

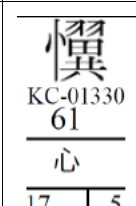

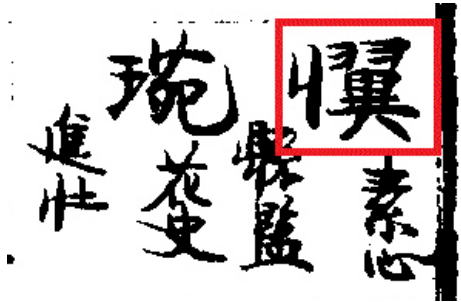

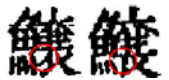

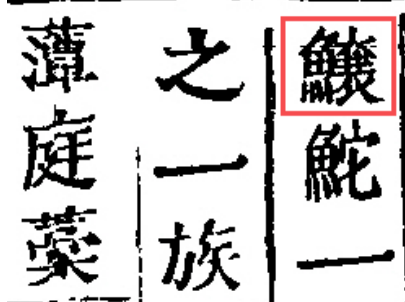

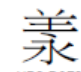

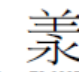

03810				Font design	<p>The upper right component looks like 宀 rather than 宀.</p> <p>Evidence:</p> 	<p>Change the upper right component as 宀.</p>	H
04718				Font design	<p>According to the evidence, a dot should be removed from the glyph.</p> <p>Evidence:</p> 	<p>No change. See another Evidence.</p> 	H

Table 4. Evidence

SN	Image1	SN2	Image2	Type	Comment	KR Responses	Comment From
01318				Evidence quality	<p>Evidence unclear. It is difficult to identify the middle and lower parts of the right component.</p> <p>Evidence:</p> 	<p>KR revised clear evidences at 2016-01-09. See revised evidence:</p>	H

							
05120				Evidence quality	<p>The evidence shows two forms of the glyph with the difference of a stroke. Which one is stable? Evidence: </p>	<p>Evidence Check error.</p> <p>This glyph's evidence is . See corrected evidence: </p>	H
03118				evidence	<p>"二水" should be normalized to "永"?</p> 	<p>KR will Change glyph as .</p> <p>[Reference] See IWDS No.296. 7F95 羊 123.5     G3-6769 HB2-D6F2 T2-3837 K2-5371</p>	J

						<p>2F978 美 羊 1235 T6-4D23 ≡ 7F95 美 ~ 7F95 FE00 (CJK Compatibility Ideographs Supplement)</p> <p>See IWDS No.61. 61</p> <p>永 永 暴 泉 泉 泉 058/228 6-3167 A-235C 2F8D1 3AE4 6-1771 A-0360</p> <p>Is this case need to add IWDS No.61 too?</p>	
03146	籜 KC-03245			evidence	<p>Not "幸" but "𠄎𠄎" (3 horizontal strokes in the lower part) in the evidence</p> 	<p>KR will Change glyph as "𠄎𠄎".</p>	J
03190	糶 KC-03272			evidence	<p>Not "白" but "旧" in the evidence</p> 	<p>"旧" is simplified the traditional form of "白". KR normalized to traditional form of "白".</p>	J, SAT
03359	及 KC-05591			evidence	<p>Not "及" but "反" in the evidence?</p> 	<p>Not "反" but "及". See IWDS No.205. 205</p> <p>及 及 及 (JIS X 0213 - 114) 及③ 及④ 吸 (HYDCD - 07)</p>	J
03365	穢 KC-03401			evidence	<p>unclear evidence</p> 	<p>KR revised clear evidences at 2016-01-09. See revised evidence:</p>	J

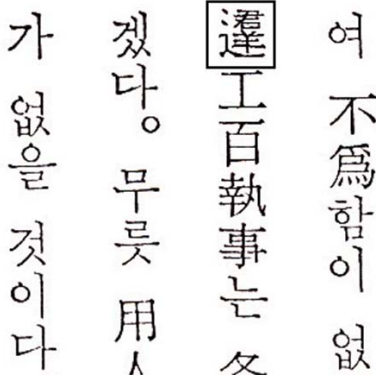

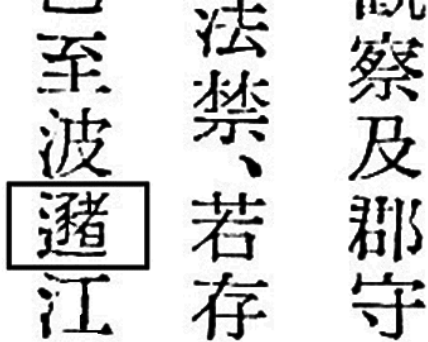

03429	肭 KC-03468		evidence	unclear evidence 	KR will Change glyph as "具". KR revised clear evidences at 2016-01-09. See revised evidence: 	J	
03436	膀 KC-03469		evidence	the component enclosed by 尸 is 方? 	This glyph is composed of 月+房.	J	
03561	芟 KC-03547		evidence	unclear to identify as "又". it could be "文" without the top dot. 	This glyph is "又". KR revised clear evidences at 2016-01-09. See revised evidence: 	J	

03586	 莊 KC-03564			evidence	The shape of this evidence might be 莊 (U+8358) 	The lower left component is not "𠂇/斗" but "牛".	SAT
03597	 菩 KC-03578			evidence	unclear to identify as grass head. 	KR revised clear evidences at 2016-01-09. See revised evidence: 	J
03629	 恍 KC-03622			evidence	the lower left component does not look like heart (忄) 	The lower left component is 忄. See another evidence. 	J
03648	 尊 KC-03660			evidence	J: there might be no "八" over 酉. SAT: The shape of this evidence is different from the glyph. The evidence seems to be unified with 尊 U+453F 	KR will Change glyph as no "八" over 酉.	J, SAT

03783	 KC-05473		evidence	“二水” should be normalized to “永”? 	KR will Change glyph as 永.	J
03797	 KC-03823		evidence	The left component is "衣"? 	The left component is "衣".	J
03859	 KC-03894		evidence	The evidence glyph has "厂" but proposed glyph lacks it. 	KR will Change glyph having "厂".	J
03862	 KC-03901		evidence	1 horizontal stroke is missing in the proposed glyph. 	KR will Change glyph as "具".	J
03880	 KC-03932		evidence	unclear to identify as proposed 	KR withdraw this glyph. It was identified miswriting of 謹(U+8B74).	J
04127	 KC-04025		evidence	unclear evidence to identify the most right component 	KR revised clear evidences at 2016-01-09. See revised evidence:	J

							
04301	遘 KC-04107			evidence	the top of the component 崙 in the evidence is unclear to identify as 日山人. It could be regarded as 火. 	The top component is 山.	J
04308	肅 KC-04116			evidence	the top of the component 肅 in the evidence is unclear to identify. 	肅 is hand writing style of 肅. KR normalized to 肅. KR revised clear evidences at 2016-01-09. See revised evidence: 	J

04312	 KC-05787			evidence	evidence is unclear to identify the middle component as "羊" 	The middle component is "羊". See another evidence: 	J
04314	 KC-04126			evidence	evidence is unclear to identify the middle component as "豕" 	 The middle component is "豕". See another evidence:	J
