**Subject:** IRG N2222 (PnP v10 Draft 1) feedback per Recommendation IRG M48.3

Dr. Lu and others,

Per Recommendation IRG M48.3, the following is my feedback for IRG N2222 (aka PnP v10 Draft 1):

1) For the new text at the end of Section 2.1.1, change "accept" to "acceptable," and insert "an" between "unless" and "approved."

2) I think that Sections 2.2.1.d.(2).e) and 2.2.1.d.(2).f) can be combined into the following single Section 2.2.1.d.(2).e):

"Ideographs from ancient documents that are rare and not in general use, along with variants from tombstone carvings that are not in circulation nor used in printed form, should have an appropriate base character identified through the use of authoritative dictionaries and other references, then submitted as IVSeS to be registered in a new or existing IVD collection. See Section 2.2.1g."

3) For Section 2.5.2.b, you forgot to delete the following sentence:

"Submit the ideograph as a compatibility ideograph character."

Regards...

-- Ken
