

Response to IRGN2241ResponseToComments  
(John Knightley 17 October 2017)

*VNPF Response to comments on submission to WS2017* by Lee Collins, 16 October 2017, cites source problems for V-F13BB as the reason for unifying and shows a dictionary displaying U+663C 昼. However V-F13BB 𠄎尺且 is found on page 472 of the *Ancient Zhuang Character Dictionary* (shown below), reading "sux" meaning "to know", the word is used in Longzhou Zhuang. Further discussion is required for V-F13BB before a decision is made on whether or not to unify with U+663C.
