Ideographic Rapporteur Group

Source / Contribution Identifier: Japan

Meeting: IRG#49 @ San Jose

Title: Japan Activity Report (October 2017)

Keywords: (none)

Status: For your information

Short Description: This paper summarizes activities of Japanese National Body

Proposed Conclusion / Requested Action: for review

Arguments / Text of Contribution: See attachments.

Japan Activity Report (October 2017)

1. Introduction

Japan SC2 is organized under the IPSJ/ITSCJ (Information Processing Society of Japan / Information Technology Standards Commission of Japan). The committee is responsible for all JTC1/SC2 activities, and monthly meets face-to-face. We have 18 members, 2 observers and 6 experts from IT companies and research organizations.

2. Recent Activities

2.1. Attendance at the international meetings

Three experts attended the IRG #48 @ Bundang, Korea in June.

Four experts attended the WG2 #66 @ Hohhot in September.

Three experts attended the SC2 #22 @ Hohhot in September.

2.2. IRG Collection 2015 Review

Reviewed the part of IRG Collection 2015 version 4.0 which Japan had not reviewed before version 4.0. Some Japanese experts had some technical difficulties to review the part in detail due to short review period. Japan requests for the discussion to define the relationship of review period and the numbers of the proposed characters to be reviewed in next IRG PnP.

2.3. Registration of additional sequences in the Moji_Joho collection

Reflecting the finalized CJK Unified Ideograph Extension F, Japan submitted the additional sequences for Moji_Joho collection to Ideographic Variation Database. The submission is under review, as PRI 354 (<http://unicode.org/ivd/pri/pri354/>) which would be closed on 2017-11-17.
