1. Introduction

China National Committee for Terms in Sciences and Technologies (CNCTST) delivered a request for adding 20 characters using in technical literatures to G-source. Checking by Chinese Characters Repertoire, these characters could be included by horizontal extension. The evidences are shown in the PDFs attached.

Three sources of the encoded characters should be changed:

U+943D 鐘, change GE-443C to GKJ-00181;

U+925D 鈺, change GE-415E to GKJ-00183;

U+946A 鑪, change GE-4351 to GKJ-00184.
