1. Introduction

In [IRGN2430](#), Macao request IRG/WG2 for vertical extension of 6 characters as UNC submission. Among them, the 13-7A2D glyph of CNS 11643 is the same as MC-00136. IRG experts all accepted to encode MC-00136 and consequently, TCA would like to process 13-7A2D character as UNC and horizontally extending with MC-00136 as the same code.

2. Proposed UNC Character

In the CNS 11643, the font of 13-7A2D shown as “璩”, same with MC-00136. The source of the character belong to a name.
