Meeting:	IRG Meeting No. 59
Title:	Response to Eiso's Feedback on IRGN2456
Status:	Member Submission

1. Response to 1:

It was a variant used in MSARG's legacy system, so IVS was registered to support it. In this case, the glyph submitted by MSARG departments was kept.

2. Response to 2, 3, and 4.1:

These suggestions on some expressions in the internally announced documents will be considered when MSCS is published to the public in the future.

3. Response to 4.2:

The Portuguese letters included in MSCS is based on the complete set actually widely used by MSARG. The letters in this complete set are included in either MSCS or HKSCS. (Since MSCS is a supplement to HKSCS, if they are included in HKSCS, they will not be added to MSCS.)

4. Response to 5:

It will be considered when MSCS is published to the public in the future.
