TCA needs further study on reassignment of T glyphs at U+38E3 and U+2F89B.

#45 meeting: IRGN2106

The editorial group concluded that the four-dot fire is un-unifiable to the normal form fire. Thus,  K3-2A46 should be dis-unified to  GKX-0685.01  T7-3926 of U+3E02. The editorial group supported ROK' s request to separately encode  K3-2A46 in BMP.

END.
