Release of GB 18030-2022 Information technology —Chinese coded character set

The *GB 18030-2022 Information technology —Chinese coded character set* was officially released in July 2022. The standard will effect on August 1, 2023.

This standard includes 87,000 more CJK characters derived from CJK Unified Ideographs to its extension F in UCS. It covers all 8,105 characters of the *The General Purpose Normalized Hanzi List* (通用规范汉字表).

The UCS vs GB 18030 and GB 18030 vs *Normalized Hanzi List* vs UCS mapping tables can be found at:
