For the [IRGN2577](#), the proposer had pointed one T-Source (U+31D5A/T13-396B) errors out, now TCA responds to it.

TCA replies to [IRGN2577](#) document, according to the original stone(原石) of the 《漢三公山碑》, there are three instances of the glyph 神' in the text, the shape of which are shown below(Figure. 1). The form of the character "神" is incorrect in 《碑別字新編·十畫·神字》. Therefore, the TCA agrees the suggestion from IRGN2577, and TCA will change the shape of U+31D5A (T13-396B) to 𠃉.
