

IRG N2582 Feedback

Subject: Comment to the feedback from Professor Kim to the proposal about non-Chinese Simplified Radicals

Author: suzuki toshiya

Date: 2023/03/23

Here is an individual comment to the feedback from Professor Kim to the proposal about non-Chinese Simplified Radicals.

4. Some Questions RE: 4 CJK RADICAL J-SIMPLIFIED

1) In Japan, I wonder if there can be pairs of Kanji chars where the only difference is in the radical part as shown below:

- a) Traditional Radical + the remaining components in the Kanji char
- b) J-SIMPLIFIED Radical + the remaining components in the Kanji char

2) I wonder if there is a list of such pairs mentioned in 1) above.

● To the question 4-1) & -2), the examples in the old code chart (2017) are shown in below.
