

Subject: KR Resp2 to Eiso Chan's comments  
Date: 2023.10.12.  
Authors: SHIN Sanghyun; KIM Kyongsok

-----  
[Eiso Chan]

Note: "Norm?" in my review txt means the horizontal extension is acceptable, but I suggest ROK could provide a further document to show which normalization rule you have used.

Eiso

## 1. Comments RE: 60 chars

### 1.0 A summary of KR Responses RE: 60 chars.

- 1) KR will change 10 glyphs as suggested (1.1)
- 2) KR will change the glyph and cp of one char as suggested (1.2)
- 3) KR will change the cp of one char as suggested (1.3)
- 4) For the remaining 48 chars, there will be no glyph change (KR disagrees, normalized, etc.) (1.4)

### 1.1 KR will change 10 glyphs as suggested

## 1.2 KR will change the glyph and cp of one char as suggested

[Eiso Chan]

257 U+2A1F3 ++ in character, should be 𪛛

=> KR will change the glyph and cp (U+2A1C5) as suggested

257	U+2A1F3	𪛛	2A1F3 鳥 196.15	𪛛	𪛛	𪛛	K6-1230
				GKX-1504.05	T5-7A55		

==>

256	U+2A1C5	𪗇	2A1C5 鳥 196.13 GHZ-74663.13	𪗇	𪗇	K6-122F
-----	---------	---	-----------------------------------	---	---	---------

1.3 KR will change the cp of one char as suggested.

[Eiso Chan]

298 U+2A54E 穴 in character, should be 𪗇

=> KR will change cp (U+2A54F) as suggested

298	U+2A54E	𪗇	2A54E 鼠 208.5 GKX-1528.13	𪗇	𪗇	K6-1259
-----	---------	---	---------------------------------	---	---	---------

==>

297	U+2A54F	𪗇	2A54F 鼠 208.5 GKX-1528.15	𪗇	𪗇	K6-1258
-----	---------	---	---------------------------------	---	---	---------

[Questions RE: GKX-1528.13 glyph in U+2A54E]

Q1. GKX-1528.13 glyph in U+2A54E seems unifiable with GKX-1528.15 glyph in U+2A54F.

Q2. Are GKX-1528.13 glyph and T5-6745 in U+2A54E really unifiable ?

1.4 For the remaining 48 chars, there will be no glyph change (KR disagrees, already normalized, etc.)

[Eiso Chan] => KR Responses

002 Norm? => The glyphs is already normalized. No change.

006 Norm? => The glyphs is already normalized. No change.

007 Norm? => The glyphs is already normalized. No change.

016 Norm? => The glyphs is already normalized. No change.

018 Norm? => The glyphs is already normalized. No change.

019 Norm? or “羽服擁[ ]不參禱”, may be “參禱”. => KR disagrees
